Write the four figure grid reference of each researcher into the table

The map is divided into numbers along the bottom and sides. This means each box can be identified by four numbers. An easy way to remember this is that to get the first two numbers, you go along the corridor (eastings). To get the second two numbers you then up the stairs (northings).

Researcher	Grid reference (four numbers)
Dr Ceri Lewis Associate Professor	
Nick Cox Station Manager	
Ellie Mackay Science Communicator	
Chloe Shute Marine Researcher
