

# Assesment

Age 14-16

60 minutes

## Curriculum links

- Ecosystems of the Planet

## Resources

**Student Sheet 8a:**  
Assesment paper

**Answer Sheet 8a:**  
Mark scheme

## Lesson overview

This lesson will be spent with students completing the assessment, which will include a variety of tasks such as exam questions and some skills-based questions such as finishing graphs.

## Lesson steps

### 1. Assessment (55 mins)

Students to complete assessment.

### 2. Peer assess (5 mins)

Students to use the mark scheme to mark at least one 6-mark question of a peer.

## Learning outcomes

- Apply knowledge and understanding to answer GCSE style exam questions
- Apply knowledge and understanding to answer GCSE style exam questions

## TEACHER GUIDANCE 8 (page 1 of 1)

### Step Guidance

### Resources

55  
mins

Step 1 introduce the lesson and go through the expectations of the assessment with the class. Expectations: this assessment should be completed in exam conditions which means students should be sat in silence and if they have any questions they must put up their hands to ask them. The front page of paper needs to be filled in by students and all the information on the front page must be read by students.
