

Arctic Pledge Background

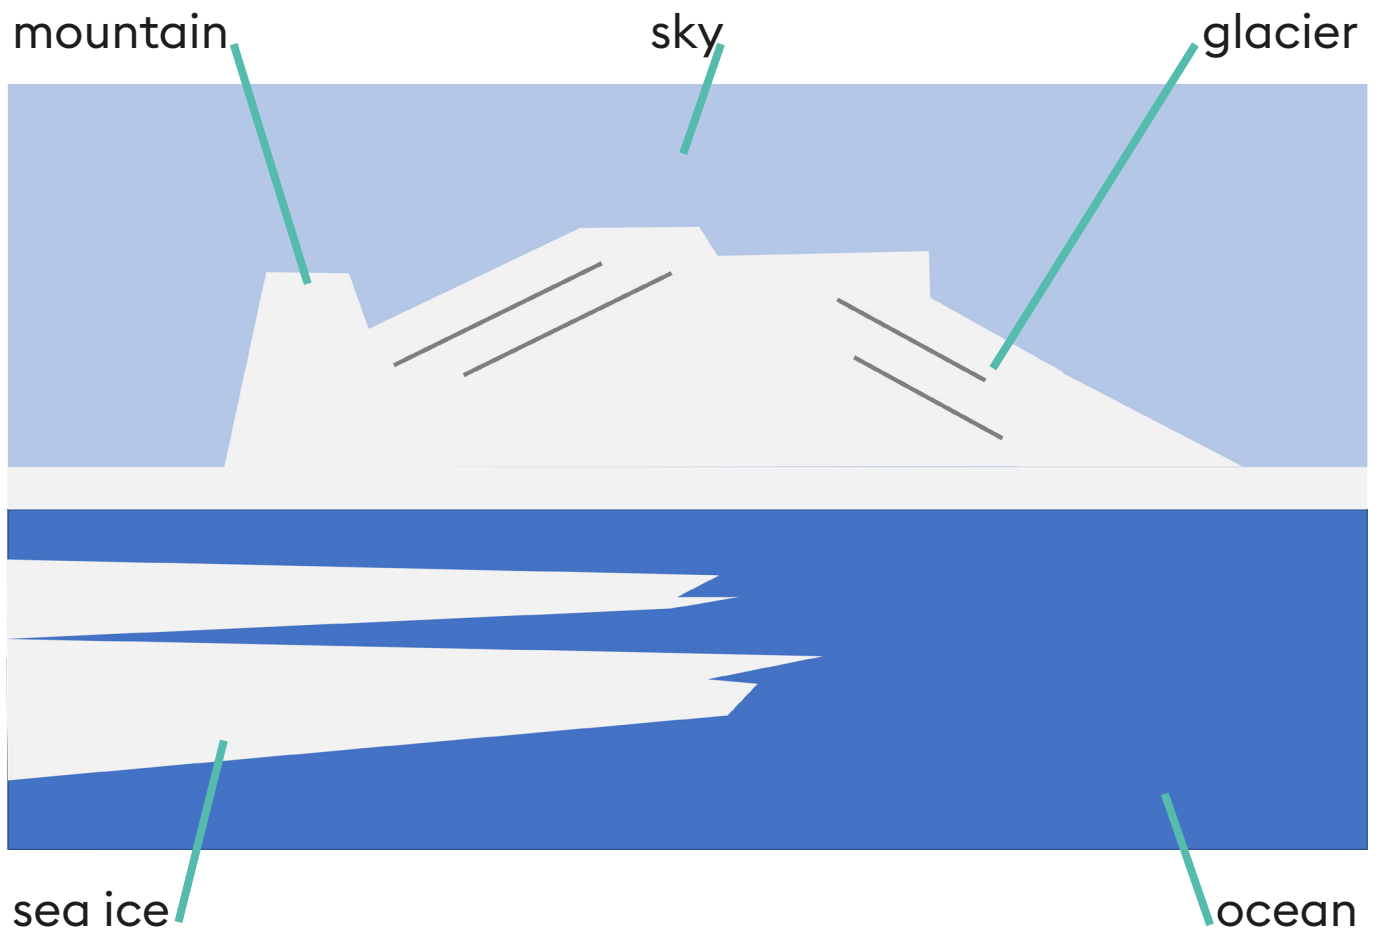

Some classes may wish to create a display background where students can stick their pledges for caring for the Arctic.

The example below uses three different colours of backing paper:

- light blue for the sky
- dark blue for the ocean
- white for the mountain/glacier and sea ice

You can use a marker pen to add some details to the landscape.

You can also browse and save photos from Encounter Edu's Arctic galleries at <https://encounteredu.com/multimedia/collections/frozen-oceans> to decorate the display.
